

# Students Entering Third Grade

## Summer Math Packet

Name \_\_\_\_\_

St. Thomas Aquinas Catholic School

Dear Parents,

The attached packet provides a range of activities that review and expand on the math concepts your child has learned in school this past year. It is designed to be worked on for 15 to 30 minutes a day throughout the summer, rather than completed in just a few days at the beginning or end of summer. The goal is to keep skills sharp to be ready to move forward into the next school year.

Students **will** be asked to hand in their completed work the first week of school.

Have a great summer!
