Entering Pre-K
Pre-Kindergarten Summer Reading List
(Suggested Books for parents to read)

Reading to young children promotes brain development, language development, literacy skills, and is a great time to bond with your child. While we don't have any required summer readings for entering into Pre-K, we have compiled some book ideas that will set your child up for a love of reading! Preschool aged children love books that are silly and imaginative. They enjoy books that have a simple cadence and rhymes. Books with predictable or repeated texts are fun for parents to read and your child may even "read" them on their own from memory.

Some of our Pre-K favorites are:

- *Owl Babies* by Martin Waddell
- *Silly Sally* by Audrey Wood
- *Miss Mary Mack* by Mary Ann Hoberman
- *If You Give a Mouse A Cookie* by Laura Numeroff
- *Today is Monday* by Eric Carle
- *The Napping House* by Audrey Wood
