Entering 3rd Grade

Where would you like to go this summer? What would you like to do? Well, books can take you to those places, put you in great adventures, and let you meet new friends. Instead of a specified list of titles, we encourage you to visit the public library or local bookstores and find titles that interest your child. Summer should be a time of enjoyment, so read what YOU WANT! If you are having trouble finding books you like, refer to the links on the Saint Thomas Library’s Summer Reading Page.

We ask that you read a minimum of six books, and that only two titles be selected from the same author. We will write our first book report, based on one of your summer reading books, in the first few weeks of school.

So, while relaxing on the warm sand at the beach or sitting in the cool shade of a tree in your own backyard, open up a book and travel to those faraway places. We know you will meet many new and interesting people and will have some of the greatest adventures of your life!
